## EXPERIENCE

---

### Jr. Full Stack Developer, Medten

May 2024 — Present

- Lead development on BETA Biomed website using Nuxt, implemented a responsive and SEO friendly frontend for BETA
- Actively contributing to migration of current product catalog and database UI from Vue to Nuxt
- Implemented testing through Cypress

Technologies: Javascript, Nuxt, Vue, MySQL, Cypress

### Software Security Intern, CompTia

June 2020 — Aug 2020

- Developed an accessible and user-friendly course that enables learners to study for CompTia A+
- Distributed the courses to local high school and middle schools

### Advanced Repair Agent, Geek Squad

Nov 2022 — Present

- Utilized technical expertise to diagnose and repair customer devices, ensuring timely and effective solutions.

## EDUCATION

---

California State University Fullerton, Computer Science, Bachelors of Science

2024 — 2026

Irvine Valley College, Computer Science, Associates of Science

2021 — 2024

## CURRENT PROJECTS

---

### Beta Biomed

- Developed a responsive, profesional website for BETA Biomed
- Designed with SEO in mind, using server-side rendering, to increase conversion

Technologies: Nuxt, Vuetify, TypeScript

### Playability

- Built a platform where users can look up video games to see their accesibilty settings
- Uses AI to estimate accesibilty, then uses user reporting to confirm or report inaccuracies

Technologies: Nuxt, Nitro, TypeScript, Postgresql, Tailwind

### Sorting Machine

- Sorts user inputed or randomly generated array with different algorithms and compares
- Created API to call from web application to sort given array, and time algorithm completion

Technologies: Flask, Vue, TypeScript, Python, Tailwind

### Personal Portfolio

- Designed and developed visually unique and responsive portfolio to showcase my projects and photography
- Optimizes large image files to display high quality photography without bloating webpage

Technologies: Nuxt, Nitro, TypeScript, Tailwind

## SKILLS

---

- Code: Vue, Nuxt, TypeScript, Javascript, Python
- Tools: Docker, AWS, PostgreSQL, Tailwind

## ACHIEVEMENTS

---

CyberPatriot National Finalist

2019
